## Course Details & Outcomes

### Course Description

The course follows 'Japanese 1' and further introduces a number of basic Japanese structures and vocabulary that are essential to basic Japanese communication. It also offers learning of about 85 new Kanji, Japanese characters. The following five social/cultural topics will be covered: 1. Favorite things and activities, 2. Describing others, 3. Ordering food, 4. Talking about

your childhood, 5. Annual events. On each topic, while studying the language, you are challenged to discover different approaches to viewing the world around you linguistically and culturally and are given the opportunity to understand current sociocultural issues in Japan.

## Relationship to Other Courses

If you did not complete ARTS1630 Japanese 1 in the past, please take our language placement.

## Course Learning Outcomes

## Attendance Requirements

Attendance of Lecture, Tutorials and Seminars every week are mandatory in this course. For

those who are not able to attend Lectures physically or due to time clash, listening to Lecture before your own Tutorial is required for receiving your attendance.

**Unexcused absence from more than 20% of Lecture, Tutorial and Seminar (means more than 10 hours in total)** will result in receiving No mark for the Project. In Lecture, Tutorial and Seminar, you will actively engage with core course content, enabling you to attain CLO 1,2, and 4. You are required to submit the Lecture entries which come up when you are attending/watching Lecture for receiving your attendance every week. We will take attendance for all the Tutorial and Seminar by asking you to write your ID, name and signature in classes or calling our roll and ask you to put your video on in online classes.

Other Considerations:

- Align with the course learning outcomes;
- Result in a recorded artefact (an artefact for participation may include a post, or response, to an online discussion forum, poll or quiz, when an artefact for mandatory attendance may include a record of attendance) and have processes in place for recording the student artefact;
- Where relevant, include evidence that the attendance or participation is required to meet a statutory or professional body requirement; and
- Be comparable where the activity is delivered in different modes.

## General Schedule Information

Homework schedule and more detailed course schedules will be available from Moodle. Please follow the schedule to prepare for classes.

## Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

- Copying: Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment without appropriate acknowledgement.
- Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.
- Collusion: Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
- Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.
- Duplication ("self-plagiarism"): Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items. UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW, but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your

needs

- use and manage information effectively to accomplish a specific purpose
- better manage your time
- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

## Use of AI for assessments

As AI applications continue to develop, and technology rapidly progresses around us, we remain committed to our values around academic integrity at UNSW. Where the use of AI tools, such as ChatGPT, has been permitted by your course convener, they must be properly credited and your submissions must be substantially your own work.

In cases where the use of AI has been prohibited, please respect this and be aware that where unauthorised use is detected, penalties will apply.

[Use of AI for assessments | UNSW Current Students](#)

## Submission of Assessment Tasks

Assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, alternative submission details will be stated on your course's Moodle site. For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

## Late Submission Penalty

UNSW has a standard late submission penalty of:

- 5% per calendar day,
- for all assessments where a penalty applies,
- capped at five calendar days (120 hours) from the assessment deadline, after which a student cannot submit an assessment, and
- no permitted variation.

Students are expected to manage their time to meet deadlines and to request [Special Consideration](#) as early as possible before the deadline. Support with [Time Management is available here](#).

**Important note:** UNSW has a “fit to sit/submit” rule, which means that if you sit an exam or submit a piece of assessment, you are declaring yourself fit to do so and cannot later apply for Special Consideration. This is to ensure that if you feel unwell or are faced with significant circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.
