

UNSW Course Outline

VISN4016 Vision Science Honours (For students commencing in T2 2024) - 2024

Published on the 13 May 2024

General Course Information

Course Code : VISN4016

Year : 2024

Term : Term 2

Teaching Period : T2

Is a multi-term course? : Yes

Additional Term(s) : 2024, Term 3 2025, Term 1 2025

Faculty : Faculty of Medicine and Health

Academic Unit : School of Optometry and Vision Science

Delivery Mode : Multimodal

Delivery Format : Standard

Delivery Location : Kensington

Campus : Sydney

Study Level : Undergraduate

Units of Credit : 16

Course Details & Outcomes

Course Description

Students in this course will undertake research under the supervision of an academic in the School of Optometry and Vision Science. Advanced training will be given in selected areas of vision science, including a supervised program that emphasises the use of specialised techniques relevant to the research area (for example laboratory-based, clinical or public health techniques/applications), A written literature review and research proposal, ethics application and final research thesis are required. In addition, this course includes regular attendance at seminars. During the Honours year, students will be required to present two research seminars in the School of Optometry and Vision Science.

This course is only available to students undertaking Vision Science Honours within the School of Optometry and Vision Science, Faculty of Medicine and Health. The course runs for the whole year and requires enrolment each term, for 3 terms (16UOC each term). All enrolment in VISN4016 should be with School's consent to ensure that students are only able to enrol if they have an appropriate project and supervisor.

Course Aims

The aim of this course is provide students with the opportunity to engage in research in vision science. The research project will allow development of the essential skills for life-long learning, critical thinking and enquiry. Students will undertake supervised research that seeks to develop advanced disciplinary knowledge in Vision Science, the use and application of specialised techniques relevant to their chosen research area, critical thinking, evaluation and synthesis of information for scientific research communication in both oral and written forms.

Relationship to Other Courses

Assistance with progression checking:

If you are unsure how this course fits within your program, you can seek guidance on optimising your program structure from staff at the [Nucleus Student Hub](#).

Progression plans for UNSW Medicine and Health programs can be found on the [UNSW Medicine & Health website](#).

Course Learning Outcomes

Course Learning Outcomes
CL01 : Undertake independent research in Vision Science
CL02 : Communicate disciplinary knowledge and research findings in both written and oral form
CL03 : Show Strong information literacy skills by conducting an analytical literature review
CL04 : Demonstrate an ability to undertake scientific research and understanding of the research process as applied to Vision Science
CL05 : Construct a research project report that demonstrates critical thinking and judgement in developing new understanding.
CL06 : Demonstrative cognitive skills that review, analyse, consolidate and synthesise knowledge.

Learning and Teaching Technologies

Moodle - Learning Management System

Learning and Teaching in this course

All course materials and course announcements are provided on the course learning management system, Moodle (or Open Access).

By accessing and using the ICT resources provided by UNSW, you are agreeing to abide by the ['Acceptable Use of UNSW ICT Resources'](#) policy particularly on respect for intellectual property and copyright, legal and ethical use of ICT resources and security and privacy.

Additional Course Information

SCHOOL OF OPTOMETRY AND VISION SCIENCE, UNSW SUPPLEMENTARY EXAMINATION INFORMATION, 2024

SPECIAL CONSIDERATION

On some occasions, sickness, misadventure or other circumstances beyond your control may prevent you from completing a course requirement, such as attending a formal end of semester examination. In these cases you may apply for Special Consideration. **UNSW operates under a Fit to Sit/ Submit rule for all assessments. If a student wishes to submit an application for special consideration for an exam or assessment, the application must be submitted prior to the start of the exam or before an assessment is submitted. If a student sits the exam/ submits an assignment, they are declaring themselves well enough to do so.** The application must be made via Online Services in myUNSW. Log into myUNSW and go to My Student Profile tab > My Student Services > Online Services > Special Consideration. Submit the application (including supporting documentation) to UNSW Student Central.

CHRONIC ISSUES AND PRE-EXISTING CONDITIONS

If you have chronic issues and pre-existing conditions, we recommend you apply for Educational adjustments for disability support through Disability Services.

Register for Disability Services at <https://student.unsw.edu.au/disability-registration>

Absence from a final examination is a serious matter, normally resulting in a Fail (FL) grade. **If you are medically unfit to attend an examination, YOU MUST CONTACT THE SCHOOL DIRECTLY ON THE DAY OF THE EXAMINATION TO ADVISE OF THIS** (telephone 02 9385 4639,

email: optometry@unsw.edu.au). You must also submit a Request for Special Consideration

application as detailed on the UNSW website: <https://student.unsw.edu.au/special-consideration>.

It is the responsibility of the student to consult the web site or noticeboard to ascertain whether they have supplementary examinations. This information WILL NOT be conveyed in ANY other manner. Interstate, overseas or any other absence cannot be used as an excuse.

This information will be available on the School web site at <http://www.optometry.unsw.edu.au> (do not confuse the School website with the myUNSW website) and posted on the notice board on Level 3. This information will be available as soon as possible after the School Examination Committee meeting.

SUPPLEMENTARY EXAMINATIONS FOR 2024 WILL BE HELD AS FOLLOWS: FOR TERM 1:

- **STAGE 1-4* COURSES: WEDNESDAY, 15 MAY 2024 – FRIDAY, 17 MAY 2024**
- **THERE WILL BE NO SUPPLEMENTARY EXAMINATIONS FOR STAGE 5 STUDENTS IN TERM 1 2024**

FOR TERM 2:

- **STAGE 1-4 COURSES: WEDNESDAY, 28 AUGUST 2024 - FRIDAY, 30 AUGUST 2024**
- **THERE WILL BE NO SUPPLEMENTARY EXAMINATIONS FOR STAGE 5 STUDENTS IN TERM 2 2024**

FOR TERM 3:

- **STAGE 5 COURSES ONLY: DURING THE WEEK OF MONDAY, 9 DECEMBER 2024 – FRIDAY, 13 DECEMBER 2024**
- **STAGE 1-4* COURSES: WEDNESDAY, 11 DECEMBER 2024 - FRIDAY, 13 DECEMBER 2024**

Supplementary examinations will be held at the scheduled time only. If students who are granted supplementary examinations do not attend, a failure will be recorded for that course. **Students should not make travel arrangements, or any other commitments, before establishing whether or not they have supplementary examinations. Ignorance of these procedures, interstate, overseas or any other absence will not be accepted as an excuse. But usual Special Consideration still applies.**

If additional assessment is not scheduled, this does NOT indicate whether or not a student has passed or failed the course. Results will be received in the usual way. Please do not contact the School in this regard.

Please note the above applies to OPTM and VISN courses only. Any information on supplementary examinations for servicing courses (e.g. CHEM****) is the responsibility of the School conducting the course.

* Stage 4 includes courses in the first year of the MClinoptom program.

Assessment Details

Final Written Research Report

Assessment Overview

The final written research report is a major assessment component of the honours year that reports the outcomes of the student's independent research. The report should be no longer than 20,000 words, and prepared in a thesis style. This generally involves an abstract, introduction, methods, results and crical discussion, with limitations and future directions for the work. Variations of this format may be be allowed with consultation and approval form the Honours convenor with consulataion given disciplinary variations regarding how research is to be reported.

The Honours thesis is submitted at the end of the second semester of enrolment.

The thesis will be marked by two independent assessors for the SOVS or externally for sufficient expertise in the filed of research as needed. A thesis marking rubric will be proved, based on This assessment is based on:

- Depth and breath of discussion
- Content of report, coverage of key issues
- Appropriate use of figures and tables
- Correctness and appropriate use of reference
- Organisation, clarity and format in appropriate scientific style.

Honours convenor will return the report with marks and assessor's comments to the student and supervisor.

Course Learning Outcomes

- CL01 : Undertake independent research in Vision Science
- CL02 : Communicate disciplinary knowledge and research findings in both written and oral form
- CL03 : Show Strong information literacy skills by conducting an analytical literature review
- CL04 : Demonstrate an ability to undertake scientific research and understanding of the research process as applied to Vision Science
- CL05 : Construct a research project report that demonstrates critical thinking and judgement in developing new understanding.
- CL06 : Demonstrative cognitive skills that review, analyse, consolidate and synthesise knowledge.

Detailed Assessment Description

Please refer to Moodle for more details.

Assignment submission Turnitin type

This assignment is submitted through Turnitin and students can see Turnitin similarity reports.

Honours Final Seminar

Assessment Overview

Final seminar in the School of Optometry and Vision Science with academics and postgraduate students.

The seminar includes introduction, methods, results and comprehensive and critical discussion of research findings in relation to current knowledge in the area. This will be followed by questions from seminar attendees. Marks based on scores from academics at the seminar. Summary of marks and comments will be provided as feedback by the Honours convenor following the seminar.

Course Learning Outcomes

- CL01 : Undertake independent research in Vision Science
- CL02 : Communicate disciplinary knowledge and research findings in both written and oral form

- CL04 : Demonstrate an ability to undertake scientific research and understanding of the research process as applied to Vision Science
- CL05 : Construct a research project report that demonstrates critical thinking and judgement in developing new understanding.
- CL06 : Demonstrative cognitive skills that review, analyse, consolidate and synthesise knowledge.

Detailed Assessment Description

Please refer to Moodle for more details.

Assignment submission Turnitin type

Not Applicable

Honours Introduction Seminar

Assessment Overview

Seminar in the School of Optometry and Vision Science with academics and postgraduate students.

The seminar includes a comprehensive introduction, methods and critical discussion of the proposed experimental design and research aims and hypotheses. There will also be time for questions from attendees. Marks based on scores from academics at the seminar. Summary of marks and comments will be provided as feedback by the Honours convenor following the seminar.

Course Learning Outcomes

- CL02 : Communicate disciplinary knowledge and research findings in both written and oral form
- CL03 : Show Strong information literacy skills by conducting an analytical literature review
- CL04 : Demonstrate an ability to undertake scientific research and understanding of the research process as applied to Vision Science
- CL06 : Demonstrative cognitive skills that review, analyse, consolidate and synthesise knowledge.

Detailed Assessment Description

Please refer to Moodle for more details.

Assignment submission Turnitin type

Not Applicable

Literature Review and Research Proposal

Assessment Overview

The literature review provides a concise (no more than 5000 words) and detailed account of published work that is most relevant to the chosen research topic. This literature review should provide an indication of the problem(s) being addressed and how previous research have approached its investigation. Students are required to provide critical analysis and synthesis of the research with the view of presenting and proposing their own research question.

The literature review and research proposal will be marked by the supervisor based on:

- Demonstrated knowledge of topic area
- Content and organisation, coverage of key issues
- Depth and breath of analysis and discussion

Honours Coordinator returns reports with marks and comments.

Course Learning Outcomes

- CLO2 : Communicate disciplinary knowledge and research findings in both written and oral form
- CLO3 : Show Strong information literacy skills by conducting an analytical literature review
- CLO4 : Demonstrate an ability to undertake scientific research and understanding of the research process as applied to Vision Science
- CLO6 : Demonstrative cognitive skills that review, analyse, consolidate and synthesise knowledge.

Detailed Assessment Description

Please refer to Moodle for more details.

Assignment submission Turnitin type

This assignment is submitted through Turnitin and students can see Turnitin similarity reports.

General Assessment Information

Detailed instructions regarding assessments for this course are provided on the course Moodle page (or Open Learning).

For student information on results, grades, and guides to assessment see: <https://student.unsw.edu.au/assessment>

Grading Basis

Standard

Requirements to pass course

In order to pass this course students must:

- Achieve a composite grade of at least 50 out of 100
- Meet any additional requirements specified in the assessment details section and on Moodle.

Course Schedule

Attendance Requirements

Not Applicable - as no class attendance is required

General Schedule Information

The times and locations of classes can be found on [myUNSW](#) under Class Timetable.

The expected engagement for all UNSW 6UOC courses is 150 hours per term. This includes lectures, tutorials, readings, and completion of assessments and exam preparation (if relevant).

Course Resources

Recommended Resources

Recommended resources for this course are provided on the course Moodle page.

Course Evaluation and Development

Student feedback is taken seriously, and continual improvements are made to the course based, in part, on such feedback.

We use student feedback from myExperience surveys to develop and make improvements to the course each year. We do this by identifying areas of the course that require development from both the rating responses and written comments. Please spare a few minutes to complete the myExperience surveys for this course posted at the top of the Moodle page at the end of term.

Other Useful Information

Academic Information

As a student of UNSW Medicine & Health you are expected to familiarise yourself with the contents of this course outline and the UNSW Student Code and policies and procedures related to your studies.

Student Code of Conduct

Throughout your time studying at UNSW Medicine & Health, you share a responsibility with us for maintaining a safe, harmonious and tolerant University environment. This includes within the courses you undertake during your degree and your interactions with the UNSW community, both on campus and online.

The [UNSW Student Code of Conduct](#) website provides a framework for the standard of conduct expected of UNSW students with respect to both academic integrity and your responsibility as a UNSW citizen.

Where the University believes a student may have breached the code, the University may take disciplinary action in accordance with the [Student Misconduct Procedure](#).

The [Student Conduct and Integrity Office](#) provides further resources to assist you to understand your conduct obligations as a student at UNSW.

Academic Honesty and Plagiarism

Academic integrity

UNSW has an ongoing commitment to fostering a culture of learning informed by academic integrity. All UNSW staff and students have a responsibility to adhere to the principle of academic integrity, and ethical scholarship of learning is fundamental to your success at UNSW Medicine & Health.

Plagiarism, contract cheating, and inappropriate use of generative AI undermine academic integrity and are not tolerated at UNSW. For more information see the [Academic Integrity and Plagiarism toolkit](#).

In addition to the information you are required to review in your [ELISE training](#), UNSW Medicine &

Health strongly recommends that you complete the [Working with Academic Integrity](#) module before submitting your first assessment task.

Referencing

Referencing is a way of acknowledging the sources of information that you use to research your assignments. Preferred referencing styles vary among UNSW Medicine & Health disciplines, so check your course Learning Management System (e.g. Moodle or Open Learning) page for information on preferred referencing styles.

For further information on referencing support and styles, see the Current Student [Referencing page](#).

Academic misconduct and plagiarism

At UNSW, academic misconduct is managed in accordance with the [Student Misconduct Procedure](#). Allegations of plagiarism are generally handled according to the [UNSW Plagiarism Management Procedure](#). Plagiarism is defined in the [UNSW Plagiarism Policy](#) and is not tolerated at UNSW.

Use of Generative AI and other tools in your assessment

UNSW has provided guiding statements for the [use of Generative AI in assessments](#). This will differ, depending on the individual assessment task, your course requirements, and the course stage within your program.

Your course convenor will outline if and how you can use Generative AI in each your assessment tasks. Options for the use of generative AI include: (1) no assistance; (2) simple editing assistance; (3) planning assistance; and (4) full assistance with attribution.

You may be required to submit the original generative AI responses, or drafts of your original work. Inappropriate use of generative AI is considered academic misconduct.

See your course Moodle (or Open Learning) page for the full instructions for individual assessment tasks for your course.

Submission of Assessment Tasks

Special Consideration

In cases where illness, misadventure or other circumstances beyond your control will prevent you from submitting your assessment by the due date and you require an extension, you need to formally apply for [Special Consideration](#) through myUNSW.

UNSW has a **Fit to Sit/Submit rule**, which means that by sitting or submitting an assessment on the scheduled assessment date, you are declaring that you are fit to do so and cannot later apply for Special Consideration.

Timed online assessment tasks

If you experience a technical or connection problem during a timed online assessment, such as a timed quiz, you can apply for Special Consideration. To be eligible to apply you need to contact the Course Convenor and advise them of the issue immediately. You will need to submit an application for Special Consideration immediately, and upload screenshots, error messages or other evidence of the technical issue as supporting documentation. Additional information can be found on: <https://student.unsw.edu.au/special-consideration>

Examinations

Information about the conduct of examinations in your course is provided on your course Moodle page.

Other assessment tasks

Late submission of assessment tasks

UNSW has standard late submission penalties as outlined in the [UNSW Assessment Implementation Procedure](#), with no permitted variation. All late assignments (unless extension or exemption previously agreed) will be penalised by 5% of the maximum mark per calendar day (including Saturday, Sunday and public holidays).

Late submissions penalties are capped at five calendar days (120 hours). This means that a student is not permitted to submit an assessment more than 5 calendar days (120 hours) after the due date for that assessment (unless extension or exemption previously agreed).

Failure to complete an assessment task

You are expected to complete all assessment tasks for your courses. In some courses, there will be a minimum pass mark required on a specific assessment task (a “hurdle task”) due to the

need to assure clinical competency.

Where a hurdle task is applicable, additional information is provided in the assessment information on your course Moodle page.

Feedback on assessments

Feedback on your performance in assessment tasks will be provided to you in a timely manner. For assessment tasks completed within the teaching period of a course, other than a final assessment, feedback will be provided within 10 working days of submission, under normal circumstances.

Feedback on continuous assessment tasks (e.g. laboratory and studio-based, workplace-based, weekly quizzes) will be provided prior to the midpoint of the course.

Any variation from the above information that is specific to an assessment task will be clearly indicated in the course and assessment information provided to you on your course Moodle (or Open Learning) page.

Faculty-specific Information

Additional support for students

The university offers a wide range of support services that are available for students. Here are some links for you to explore.

- The Current Students Gateway: <https://student.unsw.edu.au>
- Academic Skills and Support: <https://student.unsw.edu.au/academic-skills>
- Student support: <https://www.student.unsw.edu.au/support>
- Student Wellbeing, Health and Safety: <https://student.unsw.edu.au/wellbeing>

Mind Smart Guides are a series of mental health self-help resources designed to give you the psychological flexibility, resilience and self-management skills you need to thrive at university and at work.

- Mind Smart Guides: <https://student.unsw.edu.au/mindsmart>
- Equitable Learning Services: <https://student.unsw.edu.au/els>
- Guide to studying online: <https://www.student.unsw.edu.au/online-study>

Most courses in UNSW Medicine & Health use Moodle as your Learning Management System. Guidance for using UNSW Moodle can be found on the Current Student page. Difficulties with Moodle should be logged with the IT Service Centre.

- Moodle Support: <https://student.unsw.edu.au/moodle-support>

The IT Service Desk is your central point of contact for assistance and support with remote and on-campus study.

- UNSW IT Service Centre: <https://www.myit.unsw.edu.au/services/students>

Course evaluation and development

At UNSW Medicine & Health, students take an active role in designing their courses and their overall student experience. We regularly seek feedback from students, and continuous improvements are made based on your input. Towards the end of the term, you will be asked to participate in the [myExperience survey](#), which serves as a source of evaluative feedback from students. Your input to this quality enhancement process is valuable in helping us meet your learning needs and deliver an effective and enriching learning experience. Student responses are carefully considered, and the action taken to enhance educational quality is documented in the myFeedback Matters section of your Moodle (or Open Learning) course page.

School Contact Information

School guidelines on contacting staff:

Course questions

All questions related to course content should be posted on Moodle or as directed by your Course Convenor.

In cases where email communication with course convenors is necessary, we kindly request the

following:

- Use your official email address for any correspondence with teaching staff.
- We expect a high standard of communication. All communication should avoid using short-hand or texting language.
- Include your full name, student ID, and your course code and name in all communication.

Our course convenors are expected to respond to emails during standard working hours of Monday to Friday, 9am-5pm.

Administrative questions

If you have an administrative question about your program of study at the School please submit your enquiry online at [UNSW Ask Us](#).

Complaints and appeals

Student complaints and appeals: <https://student.unsw.edu.au/complaints>

If you have any grievances about your studies, we invite you to address these initially to the Course Convenor. If the response does not meet your expectations, you may then contact the School Grievance Officer, A/Prof Sieu Khuu (s.khuu@unsw.edu.au).
