

## UNSW Course Outline

# PSYC4072 Psychology Honours Research Project 6 Units of Credit - 2024

Published on the 02 Feb 2024

## General Course Information

Course Code : PSYC4072

Year : 2024

Term : Term 1

Teaching Period : T1

Is a multi-term course? : No

Faculty : Faculty of Science

Academic Unit : School of Psychology

Delivery Mode : Research

Delivery Format : Standard

Delivery Location : Kensington

Campus : Sydney

Study Level : Undergraduate

Units of Credit : 6

### Useful Links

## Course Details & Outcomes

### Course Description

Students are required to write and submit a thesis based on research carried out across the year.

The exact nature and form of research will be determined by the student and supervisor.

## **Course Aims**

The overall aim of this course is to provide research training and advanced disciplinary knowledge.

# Course Learning Outcomes

Course Learning Outcomes
CL01 : Construct a research project that demonstrates critical thinking and judgement in developing new understanding.
CL02 : Demonstrate cognitive skills that review, analyse, consolidate and synthesize knowledge.
CL03 : Identify and formulate solutions to complex problems with intellectual independence.
CL04 : Demonstrate a broad understanding of a body of knowledge and theoretical concepts with advanced understanding in some areas.
CL05 : Demonstrate initiative and judgement in scholarship.
CL06 : Demonstrate an ability to adapt knowledge and skills in diverse contexts.
CL07 : Demonstrate responsibility and accountability for own learning and practice and in collaboration with others within broad parameters.
CL08 : Demonstrate communication skills to present a clear and coherent exposition of knowledge and ideas to a variety of audiences.
CL09 : Construct a research project that demonstrates technical skills in research and design.
CL010 : Demonstrate coherent and advanced knowledge of the underlying principles and concepts in one or more disciplines, and knowledge of research principles and methods.

Course Learning Outcomes	Assessment Item
CLO1 : Construct a research project that demonstrates critical thinking and judgement in developing new understanding.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO2 : Demonstrate cognitive skills that review, analyse, consolidate and synthesize knowledge.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO3 : Identify and formulate solutions to complex problems with intellectual independence.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO4 : Demonstrate a broad understanding of a body of knowledge and theoretical concepts with advanced understanding in some areas.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO5 : Demonstrate initiative and judgement in scholarship.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO6 : Demonstrate an ability to adapt knowledge and skills in diverse contexts.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO7 : Demonstrate responsibility and accountability for own learning and practice and in collaboration with others within broad parameters.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>
CLO8 : Demonstrate communication skills to present a clear and coherent exposition of knowledge and ideas to a variety of audiences.	<ul style="list-style-type: none"> <li>• Honours conference talk</li> <li>• Thesis</li> <li>• Research Proposal and panel meeting</li> </ul>

# Assessments

## Assessment Structure

Assessment Item	Weight	Relevant Dates
Honours conference talk	0%	Start Date: Not Applicable Due Date: Likely in Week 6 of T3
Thesis	100%	Due Date: 09/10/2024 04:00 PM
Research Proposal and panel meeting	0%	Due Date: Typically by the end of Week 4 in T1. Week 5 is also acceptable.

## Assessment Details

### Honours conference talk

#### Assessment Overview

Students will be required to participate in the honours conference. This involves presenting a 20 minute talk (including 5 minutes of question time). The talk will summarise the thesis including background, aims, methods, results and discussion.

#### Course Learning Outcomes

- CL01 : Construct a research project that demonstrates critical thinking and judgement in developing new understanding.
- CL02 : Demonstrate cognitive skills that review, analyse, consolidate and synthesize knowledge.
- CL03 : Identify and formulate solutions to complex problems with intellectual independence.
- CL04 : Demonstrate a broad understanding of a body of knowledge and theoretical concepts with advanced understanding in some areas.
- CL05 : Demonstrate initiative and judgement in scholarship.
- CL06 : Demonstrate an ability to adapt knowledge and skills in diverse contexts.
- CL07 : Demonstrate responsibility and accountability for own learning and practice and in collaboration with others within broad parameters.
- CL08 : Demonstrate communication skills to present a clear and coherent exposition of knowledge and ideas to a variety of audiences.
- CL09 : Construct a research project that demonstrates technical skills in research and design.
- CL010 : Demonstrate coherent and advanced knowledge of the underlying principles and concepts in one or more disciplines, and knowledge of research principles and methods.

#### Assignment submission Turnitin type

Not Applicable

# Thesis

## Assessment Overview

Students are required to write and submit a thesis based on research carried out across the year. The exact nature and form of research will be determined by the student and supervisor. However, research projects should be guided by the Australian Psychology Accreditation Council's Rules and Accreditation Standards for Psychology Courses (<http://www.apac.psychology.org.au/>), which state, among other things, that (Section 4.1.11):

- the research project must include an individual research question, individual intensive empirical literature review, **individual data analysis**, individual reporting of results and discussion, but may involve shared data collection; and.
- the research project should be structured so that **students participate in all of the steps involved** in research including the formulation of research questions, the design of the study including selection of appropriate methodology, **the collection and analysis of data** to test the research question, the interpretation of the findings and the writing up of the report.

The maximum length of the thesis (excluding tables, figures, bibliography and any appendix) is 15,000 words, (around 60 pages of double-spaced typing at about 240-250 words per page). Students receive written feedback from two examiners (neither of whom are their supervisor).

## Course Learning Outcomes

- CL01 : Construct a research project that demonstrates critical thinking and judgement in developing new understanding.
- CL02 : Demonstrate cognitive skills that review, analyse, consolidate and synthesize knowledge.
- CL03 : Identify and formulate solutions to complex problems with intellectual independence.
- CL04 : Demonstrate a broad understanding of a body of knowledge and theoretical concepts with advanced understanding in some areas.
- CL05 : Demonstrate initiative and judgement in scholarship.
- CL06 : Demonstrate an ability to adapt knowledge and skills in diverse contexts.
- CL07 : Demonstrate responsibility and accountability for own learning and practice and in collaboration with others within broad parameters.
- CL08 : Demonstrate communication skills to present a clear and coherent exposition of knowledge and ideas to a variety of audiences.
- CL09 : Construct a research project that demonstrates technical skills in research and design.
- CL010 : Demonstrate coherent and advanced knowledge of the underlying principles and concepts in one or more disciplines, and knowledge of research principles and methods.

## Assignment submission Turnitin type

This assignment is submitted through Turnitin and students do not see Turnitin similarity

reports.

## Research Proposal and panel meeting

### Assessment Overview

To assist in the development of the research study, students are required to write a research proposal and discuss this proposal with a panel consisting of the supervisor and two other academic staff members. The proposal should be about 8 pages in length, and summarises the planned research, its rationale and expected outcomes. The following headings should be incorporated: Background (practical or theoretical problem of interest, summary of literature), Aims/hypotheses, Design, Equipment/procedures, and Analysis/Expected outcomes. The purpose of the proposal is for student to set out clearly what student is planning to do, why is it being done, how it is going to be done, and how are the results going to be interpreted. Research panels consist of three academic staff members: thesis supervisor, and two other academic staff members who provide feedback and advice about research design, methodology, and analysis. Where possible, panel members are assigned so that at least one member has expertise in a similar area of psychology. *At least three working days prior* to the panel meeting, students are expected to provide each panel member with their written research proposal. At the panel meeting, student is expected to speak on each of these points, and to lead the discussion of the proposed research. At panel meetings these staff members will get the opportunity to gain some familiarity with the proposed research and to evaluate student's understanding of the area. Feedback will be provided directly during the panel meeting.

### Course Learning Outcomes

- CL01 : Construct a research project that demonstrates critical thinking and judgement in developing new understanding.
- CL02 : Demonstrate cognitive skills that review, analyse, consolidate and synthesize knowledge.
- CL03 : Identify and formulate solutions to complex problems with intellectual independence.
- CL04 : Demonstrate a broad understanding of a body of knowledge and theoretical concepts with advanced understanding in some areas.
- CL05 : Demonstrate initiative and judgement in scholarship.
- CL06 : Demonstrate an ability to adapt knowledge and skills in diverse contexts.
- CL07 : Demonstrate responsibility and accountability for own learning and practice and in collaboration with others within broad parameters.
- CL08 : Demonstrate communication skills to present a clear and coherent exposition of knowledge and ideas to a variety of audiences.
- CL09 : Construct a research project that demonstrates technical skills in research and design.
- CL010 : Demonstrate coherent and advanced knowledge of the underlying principles and

concepts in one or more disciplines, and knowledge of research principles and methods.

### Hurdle rules

Students must submit a summary of their panel meeting. The summary must be signed by their supervisor.

## General Assessment Information

### Grading Basis

Standard

## Course Schedule

Teaching Week/Module	Activity Type	Content
Week 1 : 12 February - 18 February	Project	Research-related activities.
Week 2 : 19 February - 25 February	Project	Research-related activities.
Week 3 : 26 February - 3 March	Project	Research-related activities.
Week 4 : 4 March - 10 March	Project	Research-related activities. Panel meeting to consider proposal.
Week 5 : 11 March - 17 March	Project	Research-related activities.
Week 6 : 18 March - 24 March	Project	Research-related activities.
Week 7 : 25 March - 31 March	Project	Research-related activities.
Week 8 : 1 April - 7 April	Project	Research-related activities.
Week 9 : 8 April - 14 April	Project	Research-related activities.
Week 10 : 15 April - 21 April	Project	Research-related activities.

## Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

## Other Useful Information

### Academic Information

Upon your enrolment at UNSW, you share responsibility with us for maintaining a safe, harmonious and tolerant University environment.

You are required to:

- Comply with the University's conditions of enrolment.
- Act responsibly, ethically, safely and with integrity.
- Observe standards of equity and respect in dealing with every member of the UNSW community.
- Engage in lawful behaviour.
- Use and care for University resources in a responsible and appropriate manner.
- Maintain the University's reputation and good standing.

For more information, visit the [UNSW Student Code of Conduct Website](#).

## Academic Honesty and Plagiarism

**Referencing** is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism.

Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

**Academic integrity** is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage. At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity, plagiarism and the use of AI in assessments can be located at:

- The [Current Students site](#),
- The [ELISE training site](#), and
- The [Use of AI for assessments](#) site.

The Student Conduct and Integrity Unit provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>

## Submission of Assessment Tasks

### Penalty for Late Submissions

UNSW has a standard late submission penalty of:

- 5% per day,
- for all assessments where a penalty applies,
- capped at five days (120 hours) from the assessment deadline, after which a student cannot

- submit an assessment, and
- no permitted variation.

***Any variations to the above will be explicitly stated in the Course Outline for a given course or assessment task.***

Students are expected to manage their time to meet deadlines and to request extensions as early as possible before the deadline.

### **Special Consideration**

If circumstances prevent you from attending/completing an assessment task, you must officially apply for special consideration, usually within 3 days of the sitting date/due date. You can apply by logging onto myUNSW and following the link in the My Student Profile Tab. Medical documentation or other documentation explaining your absence must be submitted with your application. Once your application has been assessed, you will be contacted via your student email address to be advised of the official outcome and any actions that need to be taken from there. For more information about special consideration, please visit: <https://student.unsw.edu.au/special-consideration>

**Important note:** UNSW has a “fit to sit/submit” rule, which means that if you sit an exam or submit a piece of assessment, you are declaring yourself fit to do so and cannot later apply for Special Consideration. This is to ensure that if you feel unwell or are faced with significant circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.
