

UNSW Course Outline

MATH5515 Special Topics in Pure Mathematics A - 2024

Published on the 05 Feb 2024

General Course Information

Course Code : MATH5515

Year : 2024

Term : Term 1

Teaching Period : T1

Is a multi-term course? : No

Faculty : Faculty of Science

Academic Unit : School of Mathematics & Statistics

Delivery Mode : In Person

Delivery Format : Standard

Delivery Location : Kensington

Campus : Sydney

Study Level : Postgraduate

Units of Credit : 6

Course Details & Outcomes

Course Description

Not offered every year. Course content varies when offered, see the School of Mathematics and Statistics web site or contact the [<http://www.maths.unsw.edu.au/homepage.html> | School of Mathematics and Statistics].

Relationship to Other Courses

Pre-requisite: MATH2621, MATH3611

Course Learning Outcomes

Course Learning Outcomes
CL01 : Demonstrate mastery of an advanced topic in pure mathematics
CL02 : Display advanced competency in mathematical presentation and written skills.
CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems

Course Learning Outcomes	Assessment Item
CL01 : Demonstrate mastery of an advanced topic in pure mathematics	<ul style="list-style-type: none">• Assignment 1• Assignment 2• Assignment 3• Final exam
CL02 : Display advanced competency in mathematical presentation and written skills.	<ul style="list-style-type: none">• Assignment 1• Assignment 2• Assignment 3• Final exam
CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems	<ul style="list-style-type: none">• Assignment 1• Assignment 2• Assignment 3• Final exam

Learning and Teaching Technologies

Moodle - Learning Management System

Additional Course Information

Special topics (Pure Mathematics) A: Analytic Number Theory

Assessments

Assessment Structure

Assessment Item	Weight	Relevant Dates
Assignment 1	15%	Start Date: 29/02/2024 12:00 AM Due Date: Week 4: 04 March - 10 March
Assignment 2	15%	Start Date: 21/03/2024 12:00 AM Due Date: Week 7: 25 March - 31 March
Assignment 3	15%	Start Date: 11/04/2024 12:00 AM Due Date: Week 10: 15 April - 21 April
Final exam	55%	Due Date: Week 12: 29 April - 05 May

Assessment Details

Assignment 1

Assessment Overview

An assignment due around week 3 on the first 2 week's material.

Returned with feedback and/or solutions in line with standard UNSW policy.

Course Learning Outcomes

- CL01 : Demonstrate mastery of an advanced topic in pure mathematics
- CL02 : Display advanced competency in mathematical presentation and written skills.
- CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems

Detailed Assessment Description

An assignment due around week 4 on the first 2 week's material.

Assignment submission Turnitin type

This is not a Turnitin assignment

Assignment 2

Assessment Overview

An assignment due around week 6 concentrating on the material covered in weeks 3 to 5

Returned with feedback and/or solutions in line with standard UNSW policy.

Course Learning Outcomes

- CL01 : Demonstrate mastery of an advanced topic in pure mathematics
- CL02 : Display advanced competency in mathematical presentation and written skills.
- CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems

Detailed Assessment Description

An assignment due around week 7 concentrating on the material covered in weeks 3 to 5.

Assignment submission Turnitin type

This is not a Turnitin assignment

Assignment 3

Assessment Overview

An assignment due around week 9 concentrating on the material covered in weeks 6 to 8

Returned with feedback and/or solutions in line with standard UNSW policy.

Course Learning Outcomes

- CL01 : Demonstrate mastery of an advanced topic in pure mathematics
- CL02 : Display advanced competency in mathematical presentation and written skills.
- CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems

Detailed Assessment Description

An assignment due around week 10 concentrating on the material covered in weeks 7 to 9.

Assignment submission Turnitin type

This is not a Turnitin assignment

Final exam

Assessment Overview

final exam on the whole course

Students may inspect their scripts in line with standard UNSW and School policy.

Course Learning Outcomes

- CL01 : Demonstrate mastery of an advanced topic in pure mathematics
- CL02 : Display advanced competency in mathematical presentation and written skills.
- CL03 : Display the ability to apply mathematical theory to solve concrete and theoretical problems

Detailed Assessment Description

final exam on the whole course.

Assessment information

This is the final exam to be scheduled by the university/school.

Assignment submission Turnitin type

This is not a Turnitin assignment

General Assessment Information

Assessment in this course will consist of three assignments (worth 45% in total) and a two-hour final examination (55%).

Grading Basis

Standard

Course Schedule

Attendance Requirements

Please note that lecture recordings are not available for this course. Students are strongly encouraged to attend all classes and contact the Course Authority to make alternative arrangements for classes missed.

Staff Details

Position	Name	Email	Location	Phone	Availability	Equitable Learning Services Contact	Primary Contact
Lecturer	Lee Zhao		Room 4106, H13	0293857086		No	Yes

Other Useful Information

Academic Information

Upon your enrolment at UNSW, you share responsibility with us for maintaining a safe, harmonious and tolerant University environment.

You are required to:

- Comply with the University's conditions of enrolment.
- Act responsibly, ethically, safely and with integrity.
- Observe standards of equity and respect in dealing with every member of the UNSW community.
- Engage in lawful behaviour.
- Use and care for University resources in a responsible and appropriate manner.
- Maintain the University's reputation and good standing.

For more information, visit the [UNSW Student Code of Conduct Website](#).

Academic Honesty and Plagiarism

Referencing is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism.

Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

Academic integrity is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage. At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity, plagiarism and the use of AI in assessments can be located at:

- The [Current Students site](#),
- The [ELISE training site](#), and
- The [Use of AI for assessments](#) site.

The Student Conduct and Integrity Unit provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>

Submission of Assessment Tasks

Penalty for Late Submissions

UNSW has a standard late submission penalty of:

- 5% per day,
- for all assessments where a penalty applies,
- capped at five days (120 hours) from the assessment deadline, after which a student cannot

- submit an assessment, and
- no permitted variation.

Any variations to the above will be explicitly stated in the Course Outline for a given course or assessment task.

Students are expected to manage their time to meet deadlines and to request extensions as early as possible before the deadline.

Special Consideration

If circumstances prevent you from attending/completing an assessment task, you must officially apply for special consideration, usually within 3 days of the sitting date/due date. You can apply by logging onto myUNSW and following the link in the My Student Profile Tab. Medical documentation or other documentation explaining your absence must be submitted with your application. Once your application has been assessed, you will be contacted via your student email address to be advised of the official outcome and any actions that need to be taken from there. For more information about special consideration, please visit: <https://student.unsw.edu.au/special-consideration>

Important note: UNSW has a “fit to sit/submit” rule, which means that if you sit an exam or submit a piece of assessment, you are declaring yourself fit to do so and cannot later apply for Special Consideration. This is to ensure that if you feel unwell or are faced with significant circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.

School-specific Information

School of Mathematics and Statistics and UNSW Policies

The School of Mathematics and Statistics has adopted a number of policies relating to enrolment, attendance, assessment, plagiarism, cheating, special consideration etc. These are in addition to the Policies of The University of New South Wales. Individual courses may also adopt other policies in addition to or replacing some of the School ones. These will be clearly notified in the Course Initial Handout and on the Course Home Pages on the Maths Stats web site. Students in courses run by the School of Mathematics and Statistics should be aware of the School and Course policies by reading the appropriate pages on the web site starting at: [The School of Mathematics and Statistics assessment policies](#)

The School of Mathematics and Statistics will assume that all its students have read and understood the School policies on the above pages and any individual course policies on the Course Initial Handout and Course Home Page. Lack of knowledge about a policy will not be an excuse for failing to follow the procedure in it.

Special Consideration - Short Extension Policy

The School of Mathematics and Statistics has carefully reviewed its range of assignments and projects to determine their suitability for automatic short extensions as set out by the UNSW Short Extension Policy. Upon comprehensive examination of our course offerings that incorporate these types of assessments, we have concluded that our current deadline structures already accommodate the possibility of unexpected circumstances that may lead students to require additional days for submission. Consequently, the School of Mathematics and Statistics has decided to universally opt out of the Short Extension provision for all its courses, having pre-emptively integrated flexibility into our assessment deadlines. The decision is subject to revision in response to the introduction of new course offerings. Students may still apply for Special Consideration via the usual procedures.

Computing Lab

The main computing laboratory is room G012 of the Anita B. Lawrence Centre (formerly Red Centre). You can get to this lab by entering the building through the main entrance to the School of Mathematics (on the Mezzanine Level) and then going down the stairs to the Ground Level. A second smaller lab is Room M020, located on the mezzanine level through the glass door (and

along the corridor) opposite the School's entrance.

For more information, including opening hours, see the [computing facilities webpage](#). Remember that there will always be unscheduled periods when the computers are not working because of equipment problems and that this is not a valid excuse for not completing assessments on time.

School Contact Information

School Contact Information

Please visit the [School of Mathematics and Statistics website](#) for a range of information.

For information on Courses, please go to "Student life & resources" and either Undergraduate and/or Postgraduate and respective "Undergraduate courses" and "Postgraduate courses" for information on all course offerings.

All school policies, forms and help for students can be located by going to the "Student Services" within "Student life & resources" page. We also post notices in "Student noticeboard" for your information. Please familiarise yourself with the information found in these locations. If you cannot find the answer to your queries on the web you are welcome to contact the Student Services Office directly.
