UNSW Course Outline

GSOE9210 Engineering Decision Structures - 2024

Published on the 12 Sep 2024

General Course Information

Course Code : GSOE9210

Year : 2024

Term : Term 3

Teaching Period : T3

Is a multi-term course? : No

Faculty : Faculty of Engineering

Academic Unit : School of Computer Science and Engineering

Delivery Mode : In Person

Delivery Format : Standard

Delivery Location : Kensington

Campus : Sydney

Study Level : Postgraduate

Units of Credit : 6

Course Details & Outcomes

Course Description

How should one go about choosing a course of action when the consequences at stake are serious?

This course explores the logic and methodology of decision making with a view to high-stakes decisions. Topics include modelling and representing decisions, dealing with risk and uncertainty, Bayesian reasoning, and strategic decisions when other agents, hostile or friendly, are at play (game theory).

Course Aims

This course will prepare you for decision-making roles by developing your analytical decision-making skills.

Course Learning Outcomes

Course Learning Outcomes
CLO1 : Identify the key elements in a decision
CLO2 : Model decisions in analytical form
CLO3 : Compare modelling trade-offs and their implications
CLO4 : Apply a variety of analytical techniques to derive solutions to decision models
CLO5 : Evaluate, revise, and justify decision models and their solutions

Course Learning Outcomes	Assessment Item
CLO1 : Identify the key elements in a decision	<ul style="list-style-type: none">• In-course quizzes• Final Exam
CLO2 : Model decisions in analytical form	<ul style="list-style-type: none">• In-course quizzes• Final Exam
CLO3 : Compare modelling trade-offs and their implications	<ul style="list-style-type: none">• In-course quizzes• Final Exam
CLO4 : Apply a variety of analytical techniques to derive solutions to decision models	<ul style="list-style-type: none">• In-course quizzes• Final Exam
CLO5 : Evaluate, revise, and justify decision models and their solutions	<ul style="list-style-type: none">• In-course quizzes• Final Exam

Assessment Item	Weight	Relevant Dates
In-course quizzes Assessment Format: Individual	40%	Start Date: Not Applicable Due Date: Not Applicable
Final Exam Assessment Format: Individual	60%	Start Date: Not Applicable Due Date: Not Applicable

Assessment Details

In-course quizzes

Assessment Overview

The in-course assessment contributes 40% of the final mark; it consists of four (4) online multiple-choice quizzes each worth 10%. The quizzes cover all of the topics from the course and are auto-marked.

Course Learning Outcomes

- CLO1 : Identify the key elements in a decision
- CLO2 : Model decisions in analytical form
- CLO3 : Compare modelling trade-offs and their implications
- CLO4 : Apply a variety of analytical techniques to derive solutions to decision models
- CLO5 : Evaluate, revise, and justify decision models and their solutions

Assignment submission Turnitin type

Generative AI Permission Level

No Assistance

This assessment is designed for you to complete without the use of any generative AI. You are not permitted to use any generative AI tools, software or service to search for or generate information or answers.

For more information on Generative AI and permitted use please see [here](#).

Final Exam

Assessment Overview

The final exam is a 2-hour exam, held in the UNSW exam period. It is an online exam and consists of multiple choice and short answer questions covering all of the topics in the course.

Course Learning Outcomes

- CLO1 : Identify the key elements in a decision
- CLO2 : Model decisions in analytical form
- CLO3 : Compare modelling trade-offs and their implications
- CLO4 : Apply a variety of analytical techniques to derive solutions to decision models
- CLO5 : Evaluate, revise, and justify decision models and their solutions

Other Useful Information

Academic Information

I. Special consideration and supplementary assessment

If you have experienced an illness or misadventure beyond your control that will interfere with your assessment performance, you are eligible to apply for Special Consideration prior to, or within 3 working days of, submitting an assessment or sitting an exam.

Please note that UNSW has a Fit to Sit rule, which means that if you sit an exam, you are declaring yourself fit enough to do so and cannot later apply for Special Consideration.

For details of applying for Special Consideration and conditions for the award of supplementary assessment, please see the information on UNSW's [Special Consideration page](#).

II. Administrative matters and links

All students are expected to read and be familiar with UNSW guidelines and polices. In particular, students should be familiar with the following:

- [Attendance](#)
- [UNSW Email Address](#)
- [Special Consideration](#)
- [Exams](#)
- [Approved Calculators](#)
- [Academic Honesty and Plagiarism](#)
- [Equitable Learning Services](#)

III. Equity and diversity

Those students who have a disability that requires some adjustment in their teaching or learning environment are encouraged to discuss their study needs with the course convener prior to, or at the commencement of, their course, or with the Equity Officer (Disability) in the Equitable Learning Services. Issues to be discussed may include access to materials, signers or note-takers, the provision of services and additional exam and assessment arrangements. Early notification is essential to enable any necessary adjustments to be made.

IV. Professional Outcomes and Program Design

Students are able to review the relevant professional outcomes and program designs for their streams by going to the following link: <https://www.unsw.edu.au/engineering/student-life/student-resources/program-design>.

Note: This course outline sets out the description of classes at the date the Course Outline is published. The nature of classes may change during the Term after the Course Outline is published.

Moodle or your primary learning management system (LMS) should be consulted for the up-to-date class descriptions. If there is any inconsistency in the description of activities between the University timetable and the Course Outline/Moodle/LMS, the description in the Course Outline/Moodle/LMS applies.

Academic Honesty and Plagiarism

UNSW has an ongoing commitment to fostering a culture of learning informed by academic integrity. All UNSW students have a responsibility to adhere to this principle of academic integrity. Plagiarism undermines academic integrity and is not tolerated at UNSW. *Plagiarism at UNSW is defined as using the words or ideas of others and passing them off as your own.*

Plagiarism is a type of intellectual theft. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement. UNSW has produced a website with a wealth of resources to support students to understand and avoid plagiarism, visit: student.unsw.edu.au/plagiarism. The Learning Centre assists students with understanding academic integrity and how not to plagiarise. They also hold workshops and can help students one-on-one.

You are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and the proper referencing of sources in preparing all assessment tasks.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in an honours thesis or contract cheating) even suspension from the university. The Student Misconduct Procedures are available here:

www.gs.unsw.edu.au/policy/documents/studentmisconductprocedures.pdf

Submission of Assessment Tasks

Work submitted late without an approved extension by the course coordinator or delegated authority is subject to a late penalty of five percent (5%) of the maximum mark possible for that assessment item, per calendar day.

The late penalty is applied per calendar day (including weekends and public holidays) that the assessment is overdue. There is no pro-rata of the late penalty for submissions made part way through a day. This is for all assessments where a penalty applies.

Work submitted after five days (120 hours) will not be accepted and a mark of zero will be awarded for that assessment item.

For some assessment items, a late penalty may not be appropriate. These will be clearly indicated in the course outline, and such assessments will receive a mark of zero if not completed by the specified date. Examples include:

- Weekly online tests or laboratory work worth a small proportion of the subject mark;
- Exams, peer feedback and team evaluation surveys;
- Online quizzes where answers are released to students on completion;
- Professional assessment tasks, where the intention is to create an authentic assessment that has an absolute submission date; and,
- Pass/Fail assessment tasks.

(+61 2) 9385 3179 – UNSW Study Abroad and UNSW Exchange (for inbound students)

School Contact Information

CSE Help! - on the Ground Floor of K17

- For assistance with coursework assessments.

The Nucleus Student Hub - <https://nucleus.unsw.edu.au/en/contact-us>

- Course enrolment queries.

Grievance Officer - grievance-officer@cse.unsw.edu.au

- If the course convenor gives an inadequate response to a query or when the courses convenor does not respond to a query about assessment.

Student Reps - stureps@cse.unsw.edu.au

- If some aspect of a course needs urgent improvement. (e.g. Nobody responding to forum queries, cannot understand the lecturer)

You should **never** contact any of the following people directly:

- Vice Chancellor
- Pro-vice Chancellor Education (PVCE)
- Head of School
- CSE administrative staff
- CSE teaching support staff

They will simply bounce the email to one of the above, thereby creating an unnecessary level of indirection and a delay in the response.
