## Course Details & Outcomes

### Course Description

International trade is increasingly becoming more important to practitioners (as evidenced by

free trade agreements negotiated by Australia and other states), non-governmental organisations, and the general public. This course provides students with an opportunity to study select issues of international trade law in much more detail than can be covered in the introductory international trade law course. Increasingly, issues of contemporary legal significance are being decided by international trade law. They not only have effect on the international trading system, but also affect civil society more broadly. Examples include environment, labour, competition, and data flow. The course is useful for students who work, or want to work, for law firms, regulatory agencies, industry, and other entities related to trade law or who wish to understand the forces shaping the global and cross-border trade.

## Main Topics

Trade in goods

Trade in services

Trade in intellectual property

Trade and investment

Dispute settlement

Free trade agreements

New issues

## Course Aims

- Refine and sharpen understanding of the history and evolution of the WTO
- Deepen knowledge and understanding of the WTO agreements, including trade in goods, services, trade and intellectual property protection
- Understand and evaluate the dispute settlement system as a whole as well as individual disputes
- Understand the interconnectedness between trade policy and other areas, such as environmental, health and safety concerns, and labour

# Other Useful Information

## Academic Information

Upon your enrolment at UNSW, you share responsibility with us for maintaining a safe, harmonious and tolerant University environment.

You are required to:

- Comply with the University's conditions of enrolment.
- Act responsibly, ethically, safely and with integrity.
- Observe standards of equity and respect in dealing with every member of the UNSW community.

- Engage in lawful behaviour.
- Use and care for University resources in a responsible and appropriate manner.
- Maintain the University's reputation and good standing.

For more information, visit the [UNSW Student Code of Conduct Website](#).

## UNSW Law & Justice Assessment Policy

It is essential that all students undertaking this course read and abide by the [UNSW Law & Justice Assessment Policy & Student Information](#). This document includes information on Class Attendance, Late Work, Word Limits, Marking, Special Consideration, Workload, and Academic Misconduct & Plagiarism. More information can also be found at [Assessment & Exam Information](#).

Information regarding Course Outlines are subject to change and students are advised to check updates. If there is a discrepancy between the information posted here and the handbook or the UNSW Law & Justice website, please contact [Student Services via The Nucleus Hub](#) for advice. UNSW Law & Justice reserves the right to discontinue or vary such courses or staff allocations at any time. If your course is not here, please visit [Handbook](#) for information.

## Academic Honesty and Plagiarism

As a student at UNSW you are expected to display [academic integrity](#) in your work and interactions. Where a student breaches the [UNSW Student Code](#) with respect to academic integrity, the University may take disciplinary action under the Student Misconduct Procedure. To assure academic integrity, you may be required to demonstrate reasoning, research and the process of constructing work submitted for assessment.

To assist you in understanding what academic integrity means, and how to ensure that you do comply with the UNSW Student Code, it is strongly recommended that you complete the [Working with Academic Integrity](#) module before submitting your first assessment task. It is a free, online self-paced Moodle module that should take about one hour to complete.

## Generative AI

Using generative AI to conduct research or to organise your argument is not prohibited but is not encouraged. We note that the output from generative AI tools is often incorrect and almost always more superficial than is required to achieve a passing grade. Moreover, any substantive errors in the assessment, such as inappropriate references or incorrect statements, will be

regarded negatively by the marker, just as they would if not generated by AI. You should limit your use of AI to simple editorial assistance, such as standard editing and referencing functions in word processing software in the creation of your submission. You must not use any functions that generate or paraphrase passages of text, whether based on your own work or not. If your marker or Turnitin identify the use of generative AI in the text of your assessment submission, including the use of paraphrasing software, your assessment may be referred to the Student Integrity team for investigation. Please go to the link for further information about [referencing and acknowledging the use of artificial intelligence tools.](#)

### **Prohibition on use of translation apps**

With limited exceptions for language study, the course of study and assessment in Australian universities must be in English (Higher Education Standard Framework (Threshold Standards) 2021 1.5 6(c)).

In Law & Justice many classes have assessable class participation. This must be in English. **Use of a translation device to assist with contributions to class discussion is not allowed.** Similar prohibitions apply to use of any other generative text app that is not specifically permitted by the class teacher. However, use of translation software to assist a student to understand material outside of class, or to assist with preparation for assessment is generally permitted.

Further considerations apply to LLB and JD students. International lawyers who seek to be admitted in NSW must satisfy an English proficiency test. That test is expressed as equivalent to IELTS scores of 7.0 -8.0 across the tests. It is assumed that UNSW graduates are at or above those levels of English proficiency. Use of translation apps can impede the attainment of that level of proficiency. Students should avoid behaviours that put them at risk of breach of legal requirements which can have significant consequences, including potential consequences for your admission as a lawyer.

### **Submission of Assessment Tasks**

Before submitting assessment items all students must read and abide by the [UNSW Law & Justice Assessment Policy & Student Information.](#)

### **Special consideration**

Special consideration is primarily intended to provide you with an extra opportunity to demonstrate the level of performance of which you are capable. To apply, and for further

information, see Special Consideration on the UNSW [Current Students](#) page.

## Feedback

UNSW Law & Justice appreciates the need for students to have feedback on their progress prior to the last date for withdrawal without failure. All courses will therefore provide feedback to students prior to this date, as well as throughout the course. However, students should note that feedback does not take the form only of formal grades and written comments on written assessments. Rather, formative feedback, which helps students to self-assess, to identify misunderstandings, and to identify areas requiring further work, will occur during class and possibly online. For example, where a teacher asks the class a question, all students should think about how they might answer. Even though not all students will necessarily be able to respond orally, everyone can reflect on their tentative answer in light of the teacher's response and subsequent class discussion. If you are struggling to understand what is being asked in class, or if your tentative answers prove incorrect and subsequent discussion does not clear things up, then you should continue to ask questions (of yourself, your peers or your teacher). Similarly, you can get a sense of your ability in a course through peer feedback during group work, your teacher's responses to your in-class contributions, and your own response to in-class problems and examples (whether or not you are called on to relay your answer to the class) and also your online activities and responses by others to those activities. Students enrolled in this course may check their Moodle course page for details on the specific feedback used in this course.

### Course improvement

Student feedback is very important to continual course improvement. This is demonstrated within the Faculty of Law & Justice by the implementation of the UNSW online student survey myExperience, which allows students to evaluate their learning experiences in an anonymous way. myExperience survey reports are produced from each survey. They are released to staff after all student assessment results are finalised and released to students. Course convenors

will use the feedback to make ongoing improvements to the course. Students enrolled in this course may check their Moodle course page for details on the actions taken in response to evaluation feedback in Student Survey.
