## Course Details & Outcomes

### Course Description

*Note: The course code for this course was previously ARTS2093*

Social media is a huge part of life today and, for better or worse, an important arena for media professionals to get their messages across. In this course you will learn how to analyse social

media platforms and communication. We will draw on a range of contemporary social media research to understand the kinds of social and political power held by these platforms, and the critical implications of their design and governance. The course involves practical case studies in which we will investigate how identities are performed and communities are formed through close analysis of social media texts and datasets. In doing so, you will also reflect on your own social media practices, and how you might use social media in your professional future.

## Course Learning Outcomes

Course Learning Outcomes
CLO1 : Demonstrate the capacity to critically engage with contemporary theories relating to social media communication and platforms.
CLO2 : Analyse social media texts and datasets using critical frameworks.
CLO3 : Demonstrate the capacity for independent and reflective learning, in the analysis of case studies as well as your own social media use.

### **Generative AI Permission Level**

#### **Planning/Design Assistance**

You are permitted to use generative AI tools, software or services to generate initial ideas, structures, or outlines. However, you must develop or edit those ideas to such a significant extent that what is submitted is your own work, i.e., what is generated by the tool, software or service should not be a part of your final submission. You should keep copies of your iterations to show your Course Authority if there is any uncertainty about the originality of your work.

If your Convenor has concerns that your answer contains passages of AI-generated text or media that have not been sufficiently modified you may be asked to explain your work, but we recognise that you are permitted to use AI generated text and media as a starting point and some traces may remain. If you are unable to satisfactorily demonstrate your understanding of your submission you may be referred to UNSW Conduct & Integrity Office for investigation for academic misconduct and possible penalties.

For more information on Generative AI and permitted use please see [here](#).

## Attendance Requirements

### School of the Arts and Media mandatory attendance requirements

The School of the Arts and Media recognizes that to equip students with UNSW Graduate Capabilities to be Scholars, Professionals, Leaders, and Global Citizens, it is vital to ensure regular attendance. Only through ongoing engagement with peers can students develop effective skills to communicate, collaborate with, and lead others, including the ability to negotiate cultural differences and the awareness to act ethically and respectfully around others. Furthermore, only in the classroom will students be able to voice their opinions, hear those of others, engage in debate to develop their knowledge, and learn first-hand from world experts in their field of study.

**The School has a minimum attendance requirement of 80% for all non-lecture classes (tutorials, seminars, workshops, etc). Failure to meet the minimum attendance requirement will result in an Unsatisfactory Fail (UF) for the course regardless of performance on assessment tasks or other requirements for the course.**

A student may be advised by the Course Convenor to withdraw from the course if they have

already missed more than 20% of classes by the term census date. Students may also be refused final assessment if they have not met attendance requirements at the end of term.

An artefact of student attendance will be recorded by tutors and kept by the School. If a student has legitimate, documented explanation for absences (including adjustments provided by Equitable Learning Plans), the Course Convenor may choose to prescribe supplementary tasks in lieu of attendance.

Mandatory attendance requirements for SAM courses are aligned with these Program Learning Outcomes:

## Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

- Copying: Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment without appropriate acknowledgement.
- Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.
- Collusion: Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
- Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.
- Duplication ("self-plagiarism"): Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items. UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW, but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other

- assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
  - use and manage information effectively to accomplish a specific purpose
  - better manage your time
  - understand your rights and responsibilities as a student at UNSW
  - be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
  - be aware of the standards of behaviour expected of everyone in the UNSW community
  - locate services and information about UNSW and UNSW Library

## Use of AI for assessments

As AI applications continue to develop, and technology rapidly progresses around us, we remain committed to our values around academic integrity at UNSW. Where the use of AI tools, such as ChatGPT, has been permitted by your course convener, they must be properly credited and your submissions must be substantially your own work.

In cases where the use of AI has been prohibited, please respect this and be aware that where unauthorised use is detected, penalties will apply.

### Use of AI for assessments | UNSW Current Students

## Submission of Assessment Tasks

Assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, alternative submission details will be stated on your course's Moodle site. For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

## Late Submission Penalty

UNSW has a standard late submission penalty of:

- 5% per calendar day,
- for all assessments where a penalty applies,
- capped at five calendar days (120 hours) from the assessment deadline, after which a student cannot submit an assessment, and
- no permitted variation.

Students are expected to manage their time to meet deadlines and to request [Special Consideration](#) as early as possible before the deadline. Support with [Time Management](#) is

[available here.](#)

**Important note:** UNSW has a “fit to sit/submit” rule, which means that if you sit an exam or submit a piece of assessment, you are declaring yourself fit to do so and cannot later apply for Special Consideration. This is to ensure that if you feel unwell or are faced with significant circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.

## School-specific Information

### Use of Recording Devices

"To protect privacy and intellectual property, the School of the Arts and Media prohibits the use of recording devices in class (including live translation apps) without the explicit permission of the tutor and other class members. Doing so will be considered a breach of the UNSW Code of Conduct and Values."
