Course Details & Outcomes

Course Description

In this course you gain new or updated skills in the specialist TESOL field. You engage with advanced language teaching methodology and its practical applications through a program of seminars and online interactions. Topics cover different approaches to English language learning

and teaching, including effective teaching strategies and techniques for teaching reading, writing, listening and speaking, materials development, and the planning and evaluation of individual lessons and units of work. The role of ICT and the internet is addressed as an integral part of the whole course.

Course Aims

Course Learning Outcomes

Course Learning Outcomes
CLO1 : Identify, describe and critique the underlying principles of TESOL methodology
CLO2 : Integrate key theoretical and practical issues and debates around contemporary TESOL teaching methods and techniques in lesson plans
CLO3 : Critically analyse the strengths and weaknesses of different methodological approaches to TESOL and the implications for students' own teaching situation
CLO4 : Evaluate and adapt teaching and learning materials to suit students' own teaching context, based on their understanding of the relevant research literature

Learning and Teaching in this course

Teaching strategies

Students learn best when they are engaged and given an appropriate level of challenge; when

their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers.

Thus, teaching strategies used during the course will include:

- Weekly, face-to-face contact sessions
- Small group cooperative learning to demonstrate the use of group structures to address teaching and learning goals
- Structured occasions for students to reflect critically on and improve teaching practice
- Plenary discussions around core methodological issues and debates
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content
- Online learning from readings and other useful web links

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Rationale

As language is constantly evolving, practising TESOL teachers and other professionals closely involved in the field need to constantly reflect upon and re-evaluate their understandings of language and how best to teach it. The course thus aims to critically analyse, revise and extend students' understanding and practice of the core approaches and techniques of TESOL methodology.

Assessment Details

Learning task design

Assessment Overview

Design a learning task targeted to a specific group of ESL learners and provide a rationale for how it would assist those learners to acquire the target language.

Course Learning Outcomes

- CLO1 : Identify, describe and critique the underlying principles of TESOL methodology
- CLO2 : Integrate key theoretical and practical issues and debates around contemporary TESOL teaching methods and techniques in lesson plans
- CLO4 : Evaluate and adapt teaching and learning materials to suit students' own teaching context, based on their understanding of the relevant research literature

Detailed Assessment Description

- Length: No more than 2000 words (excluding references)
- Identify a specific target group of ESL learners. Select a short reading, listening or viewing text and design a series of 2 or 4 steps (e.g. pre-task, post-task) which help the targeted students to:
 - Understand and talk about the text, and
 - Extend their understanding and use of English in communicative, authentic ways.
- Explain how your pedagogical task would actively engage your chosen learner group in learning and using English.

Hurdle rules

A hurdle requirement or hurdle rule is a course requirement that must be fulfilled in order to pass the course. In all courses within the School of Education, all assessments (regardless of their

weighting) are hurdle requirements. That is, all assessments in a course must receive a pass mark in order to pass the course. Where a student has failed to meet the requirements of an assessment, they may still be deemed to have met the hurdle requirement if the failure was due to a late penalty and if the overall mark for the course is still greater than 50.

Lesson plan discussion

Assessment Overview

Prepare a detailed lesson plan and a comprehensive assessment of the approach in relation to key theoretical and practical issues and its alignment with various TESOL methodological approaches.

Course Learning Outcomes

- CLO2 : Integrate key theoretical and practical issues and debates around contemporary TESOL teaching methods and techniques in lesson plans
- CLO3 : Critically analyse the strengths and weaknesses of different methodological approaches to TESOL and the implications for students' own teaching situation
- CLO4 : Evaluate and adapt teaching and learning materials to suit students' own teaching context, based on their understanding of the relevant research literature

Detailed Assessment Description

- Length: No more than 3000 words (excluding references)
- Prepare a detailed lesson plan using a short listening, reading or viewing text as a springboard for the teaching of a language point (e.g., vocabulary and grammar or vocabulary and a functional area)
- Provide an in-depth rationale and assessment of your lesson plan with reference to theories underlying the teaching of English as a second language, making full use of the relevant literature. Your evaluation should include a discussion of the strengths and weaknesses of the materials and tasks chosen, as well as their suitability for the context in which you would normally teach.

General Assessment Information

Students are required to follow their course convenor's instructions when submitting their work for assessment. All assessment task/s are to be submitted online via Moodle by 5pm. Students are also required to retain all drafts, original data, and other evidence of the authenticity of the work for at least one year after submission/examination. For more detailed information about submission, late penalties, special consideration, and the like, visit the School of Education website on policies and procedures: [SED Policies and Procedures \(unsw.edu.au\)](http://SED Policies and Procedures (unsw.edu.au)).

Attendance Requirements

The School of Education has a minimum attendance requirement of 80% for classes, including lectures, tutorials, seminars, and other learning activities – irrespective of delivery mode. The attendance requirement is a minimum threshold for engagement and ensures that programs meet the requirements of external accreditation authorities (i.e., NESA), and for a range of programs (e.g., initial teacher education programs and other accredited postgraduate coursework specialisations). Students must register their attendance according to the course convenor's directions.

General Schedule Information

This course outline sets out the description of classes at the date the outline is published. The nature of classes may change during the term after the course outline is published. Moodle

should be consulted for up-to-date class descriptions. If there is an inconsistency in the description of activities between the University timetable and the course outline (as updated in Moodle), the description in the course outline on Moodle applies.

Other Useful Information

Academic Information

Due to evolving advice by NSW Health, students must check for updated information regarding online learning for all Arts, Design and Architecture courses this term (via Moodle or course information provided).

Please see: <https://www.unsw.edu.au/arts-design-architecture/student-life/resources-support/protocols-guidelines> for essential student information relating to:

- UNSW and Faculty policies and procedures;
- Student Support Services;
- Dean's List;
- review of results;
- credit transfer;
- cross-institutional study and exchange;
- examination information;
- enrolment information;
- Special Consideration in the event of illness or misadventure;
- student equity and disability;

And other essential academic information.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

- Copying: Using the same or very similar words to the original text or idea without

- acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment without appropriate acknowledgement.
- Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.
 - Collusion: Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
 - Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.
 - Duplication ("self-plagiarism"): Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items. UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW, but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Use of AI for assessments

As AI applications continue to develop, and technology rapidly progresses around us, we remain committed to our values around academic integrity at UNSW. Where the use of AI tools, such as ChatGPT, has been permitted by your course convener, they must be properly credited and your submissions must be substantially your own work.

In cases where the use of AI has been prohibited, please respect this and be aware that where unauthorised use is detected, penalties will apply.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externaltelsupport@unsw.edu.au

Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin, you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support, you will automatically receive a ticket number, but if you telephone, you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, alternative submission details will be stated on your course's Moodle site. For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

Late Submission Penalty

UNSW has a standard late submission penalty of:

- 5% per calendar day,
- for all assessments where a penalty applies,
- capped at five calendar days (120 hours) from the assessment deadline, after which a student cannot submit an assessment, and
- no permitted variation.

Students are expected to manage their time to meet deadlines and to request [Special Consideration](#) as early as possible before the deadline. Support with [Time Management is available here.](#)
